■ Elevated Approach Centerline Light

Compliance with Standards

CAAC: AC-137-CA-2015-03
SAC: GB/T 7256
ICAO: Annex 14, Volume 1
IEC: TS 61827
FAA: AC 150/5345-46
NATO: STANAG 3316

Application/Use

Approach centerline light

Features

- Proprietary optical design to ensure full lighting spot when the glass is partially obscured
- International standard PK30D prefocus bulb with accurate positioning and premium light distribution precision
- Self-alignment optical component without need of recalibration when replacing bulb as well as optical components
- Proprietary reflector design, cold light cup processing, temperature variations will not cause any cracks in the glass and filter
- Compact structure and attractive appearance, with small windward area and strong ability against the gales
- The main body is made of aluminum alloy with anti-corrosion surface, all fasteners are made of stainless steel, suitable for harsh environment application
- High-precision parts machining to ensure all dimensional quality and precision
- Forged frangible device with precise machining, complying with FAA standards, ensuring good stability and reliability
- IP65-grade ingress protection of the fixture, keep interior from dust
- The fixture can be connected to both one or two-inch extension pole, which ensures convenient and secure installation
- The calibrator can be installed directly on the body with high precision
- Tool free maintenance, easier to disassemble, and to replace the bulb
- Interchangeable, modular-designed components, applicable for all kinds of elevated unidirectional lights(halogen type), which effectively cuts down the inventories.
